

At the request of the Ministry of Maritime Affairs, Transport and Infrastructure, the CCA has also found that the state guarantee for a loan of 55 million euro to Autoceste Rijeka - Zagreb does not constitute State aid. Investment in additional road construction investment cycle on public roads is of general interest to the Republic of Croatia. Particular public roads are common good and are open to all customers, potential and existing under the same conditions. The loan will be used exclusively on the development of road infrastructure and therefore does not constitute State aid.
